**BOB'S LEATHER, INC.**

6321 Main Avenue, Unit P  
Orangevale, CA 95662

Dear Customer,

I would like to tell you a little about our products. The softer style of bags on pages 2 and 3 are all a one piece bottom, smooth and durable. All the main seams are double stitched with dacron polyester thread and riveted. Our box style bags on page 4 and 5 are a unique style of our own. They are designed to stay open for easy access to nails, tools, etc. They are constructed of a heavy weight leather yet light enough that they do not weigh you down before anything has been put into them. Our 3" belts and back brace belts on page 11 are a heavy leather to carry the kind of weight the construction workers carry.

We offer a carpenter supply list on page 14 and drywall supply list on page 15. On these pages you'll also find the terms for these products. We fully guarantee our products. If you have a customer return a bag that has been damaged on the job, send it back to us for repairs at no charge, and we'll send it back to you with your postage enclosed.

We have been in business since 1966, have both worked in the construction trade ourselves and know what works best. All of our products receive our personal attention to the quality, which we guarantee. If you have any questions, please feel free to give us a call at (916) 988-3531, ask for Tim.

Thank you,

Bob's Leather, Inc.

Soft Style Top Grain Cowhide Bags  
3 1/2 - 4 Oz.

**SLH – 66010**

Holders for knife or keil,
